| <b>Problem Statement:</b> Write a program in C to multiply two number |                           |                 |            |
| <b>Status:</b> COMPLETED  |                           |                 |            |
| <b>Uploaded the report in Github</b>                                  |                           | YES             |            |
| <b>If yes Repository name</b>   |                           | Ainab004        |            |
| <b>Uploaded the report in slack</b>                                   |                           | YES             |            |

## Online Test Details:

**NIL**

## Certification Course

## Coding Challenges Details:

### Program1:

```
include <stdio.h>
int main() {
    double a, b, product;
    printf("Enter two numbers: ");
    scanf("%lf %lf", &a, &b);
```

```
// Calculating product
product = a * b;

// Result up to 2 decimal point is displayed using %.2lf
printf("Product = %.2lf", product);

return 0;
}
```
